## Education

---

**Rutgers, The State University of New Jersey**

**September 2020 – October 2026**

*Ph.D. Candidate*

Advisor: Dr. Alyson Brooks

**University of Oklahoma**

**August 2016 – May 2020**

*Bachelors of Science (Astrophysics)*

*Bachelors of Arts (Sociology)*

## Teaching

---

|                                                                              |                         |
|------------------------------------------------------------------------------|-------------------------|
| Course Administrator, <i>Extended Analytical Physics IA (Rutgers)</i>        | Fall 2024               |
| Teaching Assistant, <i>Introduction to Physics Research (Rutgers)</i>        | Fall 2024               |
| Instructor of Record, <i>Intro Astronomy for Non-majors (Rutgers Newark)</i> | Spring 2023             |
| Recitation TA, <i>General Physics</i>                                        | Summer 2023             |
| Recitation TA, <i>Extended Analytical Physics IA (Rutgers)</i>               | Fall 2023               |
| Recitation TA, <i>Analytical Physics IIA for Engineering (Rutgers)</i>       | Fall 2021               |
| Lab TA, <i>General Physics I for Life Sciences (Rutgers)</i>                 | Fall 2020 & Spring 2021 |

## Advising and Mentoring

---

|                                                                               |             |
|-------------------------------------------------------------------------------|-------------|
| ASPIRE Reviewer (reviewed grad school and REU applications of undergraduates) | 2023 – 2024 |
| Mentored first-year graduate student Tehreem Hai                              | 2023 – 2024 |
| Mentored undergraduate Neel Thaker during his Honors Senior Research Project  | 2023 – 2024 |

## Outreach

---

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| Physics Demo Outreach at Local High School                        | 2023 – 2025 |
| Talk on Eclipses at the Clarence Dillon Library in Bedminster, NJ | Fall 2023   |
| Lunar Sooners Member ( <i>University of Oklahoma</i> )            | 2016 – 2018 |

## Service

---

|                                                                           |             |
|---------------------------------------------------------------------------|-------------|
| N-body Shop Code of Conduct Committee Member                              | 2023 – 2025 |
| Rutgers Minorities in Physics and Astronomy President                     | 2023 – 2024 |
| Webmaster for Rutgers Physics and Astronomy Graduate Student Organization | 2023 – 2024 |
| Rutgers Minorities in Physics and Astronomy Vice President                | 2022 – 2023 |
| Rutgers Astronomy Department Journal Club Organizer                       | 2022 – 2023 |
| Astronomy Grad Student Recruiting Contact                                 | 2022        |

## Publications

---

3. Testable Predictions of Outside-in Age Gradients in Dwarf Galaxies of All Types. **Riggs, C.L.**, Brooks, A.M., Munshi, F., Christensen, C.R., Cohen, Roger E., Quinn, T.R., Wadsley, J., 2024, *ApJ* 977:1.

2. Environment Matters: Predicted Differences in the Stellar Mass-Halo Mass Relation and History of Star Formation for Dwarf Galaxies. Christensen, C. R., Brooks, A., Munshi, F., **Riggs, C.**, Van Nest, J., Akins, H., Quinn, T., Chamberland, L., 2024, *ApJ* 961:2.
1. Stellar metallicity gradients of Local Group dwarf galaxies. Taibi, S., Battaglia, G., Leaman, R., Brooks, A., **Riggs, C.**, Munshi, F., Revaz, Y. and Jablonka, P., 2022, *A&A*, 665:A92.

## Grants, Fellowships, and Awards

---

|                                                                 |             |
|-----------------------------------------------------------------|-------------|
| Rutgers University, <i>Peter Lindenfeld Graduate Fellowship</i> | 2025-2026   |
| University of Oklahoma, <i>Duane E. Roller Award</i>            | 2019        |
| University of Oklahoma, <i>William Schriever Award</i>          | 2018        |
| University of Oklahoma, <i>National Merit Scholar</i>           | 2016 – 2020 |

## Talks

---

### Conference Contributions

|                                                                                |      |
|--------------------------------------------------------------------------------|------|
| Talk, <i>Small Galaxies, Cosmic Questions</i>                                  | 2024 |
| Poster, <i>Dwarf Galaxies, Star Clusters, and Streams in the LSST Era</i>      | 2024 |
| Talk, <i>Galactic Frontiers: Dwarf Galaxies in the Local Volume and Beyond</i> | 2023 |
| Poster, <i>AAS 241<sup>st</sup> Meeting</i>                                    |      |
| Talk, <i>CCA Galaxies Group Meeting</i>                                        | 2022 |
| Talk, <i>APS Mid-Atlantic Section Meeting</i>                                  | 2021 |

### Other talks

|                                                                                          |      |
|------------------------------------------------------------------------------------------|------|
| Rutgers Equity and Inclusion Journal Club, <i>Grades: What Are They Good For?</i>        | 2024 |
| Rutgers Equity & Inclusion Journal Club, <i>Institutional Biases in Higher Education</i> | 2022 |

## Workshops and other experience

---

|                                                                                  |                      |
|----------------------------------------------------------------------------------|----------------------|
| <b>AAS/APS Educator Workshop: Teaching Strategies that Work</b><br><i>Online</i> | <b>November 2025</b> |
|----------------------------------------------------------------------------------|----------------------|

|                                                                                |                      |
|--------------------------------------------------------------------------------|----------------------|
| <b>IAA-CSIC Severo Ochoa School on Star Formation</b><br><i>Granada, Spain</i> | <b>December 2023</b> |
|--------------------------------------------------------------------------------|----------------------|

|                                                                                                                    |                    |
|--------------------------------------------------------------------------------------------------------------------|--------------------|
| <b>NSF REU in Computational Astrophysics</b><br><i>Kansas State University</i><br><i>Advisor: Dr. Bharat Ratra</i> | <b>Summer 2019</b> |
|--------------------------------------------------------------------------------------------------------------------|--------------------|
